- Frontend developed using React, Redux and Material UI.
- Backend used Firebase, Firestore.
- Source code version controlled using Git and GitHub.
- User registration and login using Firebase Authentication.
- Users can create and read Posts.

EXPERIENCE

Online Book Library- *INTERN*

DEC 2023 - FEB 2024

During my three months as intern I gained the experience of working in a production based environment. I extensively contributed in logic build and adding functionality to the product. One of the functionality I had helped with is building Push Notification features using Firebase Cloud Messaging (F. C. M)

EDUCATION

S.E.S Polytechnic, Solapur- *Diploma*

JUNE 2015 - MONTH 2018

Completed Diploma in Computed Technology.
